Hello World
02/17/2015 10:50:50

This document is generated by EWS (Engine as Web Service).
The service is hosted by Tomcat application Server.
The WSDL of this service can be viewed at : http://localhost:8080/EngineService/EngineService?wsdl

The soap request to generate this document is :
```
<soapenv:Envelope xmlns:soapenv="http://schemas.xmlsoap.org/soap/envelope/"
xmlns:eng="urn:hpexstream-services/Engine">
  <soapenv:Header/>
  <soapenv:Body>
    <eng:Compose>
      <!--Optional:-->
      <EWSComposeRequest>
        <!--Optional:-->
        <driver>
          <!--Optional:-->
          <driver>PEN1c3RvbWVyPg0KPERvYz5IZWxsb1dvcmxkPC9Eb2M+DQo8L0N1c3RvbWVyPg==</driver>
          <!--Optional:-->
          <fileName>INPUT</fileName>
        </driver>
        <!--Zero or more repetitions:-->
        <engineOptions>
          <!--Optional:-->
          <name>TRACKIN</name>
          <!--Optional:-->
          <value>DISABLE</value>
        </engineOptions>
        <!--Optional:-->
        <includeHeader>true</includeHeader>
        <includeMessageFile>true</includeMessageFile>
        <!--Optional:-->
        <pubFile>HelloWorld_DLF.pub</pubFile>
      </EWSComposeRequest>
    </eng:Compose>
  </soapenv:Body>
</soapenv:Envelope>
```

Select the port number you want to use : 8080
